Faculty of COMPUTER SCIENCE AND MULTIMEDIA

The Faculty of Computer Science and Multimedia at Lincoln University College, Malaysia provides research-related programmes at both undergraduate and postgraduate levels. Research at this faculty takes place in two regions, Computer Science and Multimedia. Education and research are done in close relationship with both private and public sectors. We provide a rich set of courses in programming, software design and hardware design and everything related to the field. The Faculty is assisted with competent faculty members having excellent expertise in various fields of Computer Science and Multimedia. We offer state-of-art infrastructure and computing facility to students and researchers. We teach world class training and research besides fostering active collaboration by discovering areas of interest and taking part in various research projects and consultancy services.
